AREAS OF EXPERTISE:

☑ **PROGRAMMING:** Javascript • PHP • Typescript • Java • C# • Dart • Python

☑ **FRAMEWORKS:** Laravel • Node • Lumen • Springboot • .NET • Django
Vue • React • Next • Three.js • Flutter

☑ **DATABASE:** MySQL • MongoDB

☑ **CLOUD & DEVOPS:** Docker • GCP • AWS • Kong API Gateway • Apigee

PROFESSIONAL SUMMARY:

Dynamic and detail-oriented Full Stack Developer with extensive experience across both frontend and backend development, specializing in building scalable applications. Proven ability to adapt to diverse tech stacks and deliver high-quality solutions that enhance user experiences and drive project success.

PROFESSIONAL EXPERIENCE:

Software Engineer

HIPE JAPAN INC. | June 2024 – Present

- Developed and maintained full-stack applications, contributing to enhanced user experiences and system functionality.
- Ensured code quality, performance, and security through active participation in code reviews, testing, and debugging.
- Adapted to clients' preferred tech stacks through training in various programming languages and technologies, ensuring successful project delivery.

Backend Developer

PETNET INC. | April 2022 – June 2024

- Developed and optimized RESTful APIs, microservices, and backend services using Laravel, Lumen, and Node.js.
- Participated in the full Software Development Life Cycle (SDLC), contributing to various stages from requirements gathering to deployment.
- Implemented Google Cloud Logging, significantly reducing troubleshooting time and improving system reliability.

Instrumentation and Control Engineer 3

CHIYODA PHILIPPINES CORPORATION | September 2018 – April 2022

- Oversaw and expedited projects in construction, instrument, and system design deliverables.
- Developed and optimized data processing tools to streamline AutoCAD integration.

RELEVANT PROJECTS:

Instagram Automation Bot

2024

- Developed and deployed a Python-based Instagram automation bot for a Japanese client. Leveraged AWS services, including EC2 for hosting, Lambda for serverless operations, EventBridge for scheduling tasks, and RDS for data management. Delivered a packaged solution as a standalone executable using PyInstaller to enhance efficiency and scalability.

Glamday Style (Hotel Property Management System)

2024

- Developed a Full Stack Laravel web application for a Japanese client managing multiple hotels.
- Implemented features for reservation management, payment processing, order management, and third-party SOAP API integrations.

Web Treasury System

2023-2024

- Contributed to a team effort to automate the web treasury system, leveraging technologies like Laravel and Google Cloud Scheduler.

Pera Remit Partner System

2022-2023

- Led the development efforts to create a comprehensive partner system utilizing technologies such as Lumen and Vue.js.
- Appointed as the subject matter expert for the development and implementation of the Pera Remit Partner System.

EDUCATION:

Bachelor of Science in Electronics and Communications Engineering

FEU - Institute of Technology

2011 - 2017

CERTIFICATIONS / LICENSES:

Full Stack Web Development Certificate

Zuitt Coding Bootcamp | Sept 2021 – Jan 2022

Certification No.: DPC-0139-0018

Licensed Electronics Engineer

License No.: 0069885

Licensed Electronics Technician

License No.: 0016602
